SUMMARY

I am actively seeking a stimulating opportunity within a corporate environment where I can apply my expertise as a front-end developer. With a robust skill set encompassing various dimensions, I am poised to contribute effectively while continuously striving for personal and professional growth. My unwavering dedication, coupled with a keen aptitude for learning, positions me to excel in driving business success and advancing my career trajectory. I am eager to embrace new challenges and technologies, further enriching my proficiency in front-end development.

WORK EXPERIENCE

React JS Developer

Global Software Consulting (Pakistan)

10/2021 -12/2023

- Spearheading the development of fresh user-facing functionalities utilizing React.JS & Next.JS while effectively interfacing with GraphQL and Rest APIs.
- Crafting reusable components and seamlessly integrating front-end libraries to bolster project efficiency.
- Translating intricate designs and wireframes into top-tier code, ensuring optimal quality and fidelity.
- Engaging in Agile development methodologies like Scrum to orchestrate project tasks and deliverables with precision.
- Nurturing junior developers by imparting knowledge, offering guidance, and fostering their professional growth.
- Upholding coding integrity by adhering to industry best practices and standards, thus producing clean, well-documented code.

ReactJS Developer

ArhamSoft (Pakistan)

05/2020 - 09/2021

- Learning to communicate effectively within a development team, including participating in stand-up meetings and code reviews.
- Contributing to the development of smaller, scoped tasks to gradually build coding skills and confidence.
- Receiving mentorship and constructive feedback from experienced developers to accelerate learning and professional growth.
- Taking ownership of individual projects or tasks under supervision, with opportunities to showcase progress and accomplishments.
- Actively seeking opportunities to learn new technologies and tools through self-study or guided learning resources.
- Demonstrating a proactive attitude and willingness to learn from mistakes, adapting quickly to feedback and incorporating lessons into future work.

Intern ReactJS Developer

TechnoCares (Pakistan)

08/2019 - 04/2020

- Ensure to have a solid understanding of HTML5 and CSS3. This includes semantic markup, responsive design principles, and familiarity with CSS preprocessors like Sass or LESS.
- Brush up on core JavaScript concepts such as variables, data types, loops, conditionals, and functions. Understanding ES6 features like arrow functions and template literals is also crucial.
- Learn about responsive web design techniques using media queries and frameworks like Bootstrap or Flexbox. Understanding how to create websites that adapt to different screen sizes is crucial for modern web development.
- Explore popular front-end frameworks and libraries like React, Vue.js, or Angular. Understanding the basics of these frameworks will broaden your skill set and make you more versatile as a developer.

Payoff Processor

Systems Limited (Pakistan)

01/2019 - 07/2019

- Performing initial appraisal of potential borrowers by examining their applications.
- Assessing the credit standings of applicants through background research.
- Concluding applicable financial & non-financial criteria & developing loan repayment plans.
